# **Understanding Credit Webquest**

During this Webquest you will be exploring different websites that will help you to understand how credit works in order to ensure a secure financial future. As you work through the Webquest, complete the What I Learned column on the KWL chart you started in class. You will use the information you found to complete one of your two choices for your assignment *Sharing My Knowledge*.

### Begin your quest at

Scroll down to and work your way through the following

Staying out of debt and keeping my credit in good shape

**Credit and credit scores** (Interactive)

Get it on credit (Video)

Why should I try to avoid debt or pay it off quickly?

What does it really cost to borrow?

Six questions every smart borrower asks

**How to avoid financial traps** (Video)

Remember to add to your KWL chart as you work through them.

### **Next**

Visit the websites of

- 1 Major Bank
- 1 Online Bank (e.g. ING Direct, Ally, Presidents Choice)
- 1 Local Credit Union1

Compare them using the following chart – note – chose one credit product that they all offer to compare in the last 3 columns

| Institution | Pros | Cons | Product           | Interest | Terms and  | Cost of borrowing      |
|-------------|------|------|-------------------|----------|------------|------------------------|
|             |      |      | e.g. Loan, credit | Rate     | Conditions | 5000 for 5 years.      |
|             |      |      | card, line of     |          |            | Note: look for a       |
|             |      |      | credit, auto loan |          |            | calculator on the site |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
|             |      |      |                   |          |            |                        |
